

# Fostering a pet? Don't fret.

Try it risk free

Get peace of mind with the **FREE Best Friends Vet Access app.**

#ThanksToMaddie, we are expanding the Best Friends Vet Access app to thousands more foster families. The app allows you to reach a veterinarian 24/7, 365 days a year. **Because you are fostering, this service is being provided to you at no cost.**

- Call, video conference or text a veterinarian.
- Veterinarians can answer questions about medical issues, behavior, nutrition and more.
- When you call, a veterinarian will do one of the following:
  - Resolve your issue or question
  - Suggest you make an appointment with your organization's vet
  - Recommend you immediately take your foster pet to an emergency clinic

Follow your organization's procedures.

- Start by downloading the app onto your mobile device. You'll be prompted with registration instructions.
- Text messaging supported in 100+ languages.
